## **Points Covered In This Session**

- ✓ Scrum Master is a process coach and serves the team
- ✓ The Product Owner provides the vision and boundaries for the product and the projects
- ✓ Scrum Team should be cross-functional, small and self-organizing
- ✓ Scrum Roles will be applied to the team members and titles can be changed as the team transitions to Scrum
- ✓ The necessity to emphasize on the new method and to get maximum value out of Scrum

## **Thank You!**

Let's enjoy Section 6 – Agile – Estimation, Plan, Monitor and Control
