Scrum of Scrums

Scrum of Scrums – Mechanism established to coordinate the work of multiple teams working on the same project

Scrum of Scrums

Scrum of Scrums Meeting:

✔ Attended by a representative from each team

✔ Purpose is to solve problems requiring collaborative effort across multiple teams

✔ Representatives to update other teams about their progress and next action plan

✔ Teams to discuss their problems which require help from others

Scrum Events

✔ Be open and flexible to new options

✔ Decide whether to synchronize the start and end dates or stagger

✔ Due to dependencies across the team, Sprint planning may be a challenge

✔ Can be resolved by

- Staggering the planning by a day
- Creating a big room

✔ Form communities of practices across different teams

- Enables teams to share practices and templates
- Could be virtual or formally structured teams depending on the situation and organization
